

Poly-Air™ Activated Carbon Vent Filter

Poly-Air™ is an activated carbon vent filter that can remove offensive odors, such as Hydrogen Sulfide, as they come out of the roof vent. Use our filter to eliminate these unpleasant odors.

Features & Benefits:

The Poly-Air™ Activated Carbon Vent Filter is manufactured to fit your existing pipe. Our standard size vent cover will fit 4" & 3" vents. The Poly-Air™ will also fit 2" and 1.5" vents with our optional vent reducer.

Polylok's Poly-Air™ is your answer to eliminate septic odors. It is inexpensive and can be easily installed on existing vents. Never experience unpleasant odors from your house or portable toilet vents again!

Poly-Air™ Features:

- Simple Installation.
- Low Cost.
- Fits existing 4", 3", 2", & 1.5" pipe.
- No more offensive odors.
- Contains 1lb. of charcoal in each cover.
